THE CHURCH FOR ALL . . . ALL FOR THE CHURCH The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a

strong Church, neither democracy nor civilization

can survive. There are four sound reasons why

every person should attend services regularly and

support the Church. They are: (1) For his

own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For

the sake of the Church itself, which needs his

moral and material support. Plan to go to

church regularly and read your Bible daily.

Double Standard

proposals involved serious alterations in world from the sale of surplus food, and the taxation of businesses, public atten- makes large quantities of the money tion largely was diverted to the use and available to traveling Congressmen occasional abuse of businessmen's ex- who have no daily limit and who make pense accounts.

In broad strokes, the picture was painted. Businessmen lolled on the decks of tax-free yachts, flew through the clouds in tax-free planes and lived it up in fine hotels.

Oddly, the critics were lawmakers and officials who have been enjoying such boons at the expense of taxpayers through good times and bad.

In Washington, they often rode to the tax hearings at which the charges were made in Government limousines, chauffered and tail-finned. While the hearings went on, it was reported that a cabinet member cruised the Potomac one weekend in the Presidential yacht.

It was revealed that the U.S. Air Force maintains more than 700 airplanes in which it hauls Congressmen and other VIPs around the world-more planes than any American airline owns. And day by day the government ac- the deductions were legitimate.

Although President Kennedy's tax cumulated local currencies all over the only the sketchiest accounting, if any.

Of course, when officials spend money this way the cost is borne 100 percent by the taxpayer. When a businessman deducts an expense, he pays it, not the government. The question is whether he should pay tax on a business expense as "profit," which it is not.

It was not stressed at the hearings that anything deducted as an "expense" is subject to review by the tax agents. Present laws allow the government to deny such claims if they are not genuine. The Treasury record introduced at the hearings showed that in a batch of 38,000 tax returns examined, the government collected additional taxes on more than half.

Nor was it stressed that in nine returns involving private planes and 15 involving yachts the 'agents allowed deductions larger than the taxpaver originally had claimed—a sure sign that

Opinions Of Other Editors

Ending A Forest Land Snag

Of the several bills affecting conser- holdings and to alleviate boundary vation now before the Legislature, the one most minor in scope has stirred up the most opposition.

HB-473 is an Administration proposal to raise the dollar limit per acre the State can pay for forest

The present \$10 limit for tracts outside state forests was set in 1923, and the \$20 limit for interior holdings was established in 1937.

These limits do not reflect current real estate values, and the Department of Forests and Waters wants them raised to \$25 and \$50, respectively.

The Pennsylvania Chamber of Commerce has opposed the bill on the grounds that the State should not increase its forest holdings.

Few people, of course, would want to see the State begin an indiscriminate program of buying up forest land. But this is not the purpose of the bill. The purpose is to consolidate the state's able one.

problems.

Scattered throughout our state forests are many small pockets of privately-owned land. Some cause no trouble. But others complicate boundary, maintenance and right-of-entry

And in many cases they could be purchased for a few dollars more than the current limit. It is worth noting here that the Game Commission, when purchasing land, can go up to a limit of the country an invulnerable de-\$100 per acre.

The biggest check on the amount of land the department can purchase is the amount of money it has to work with. If the department is permitted to spend more per acre for land with this money. the amount it will purchase over a given two syndicated columnists, is deperiod of time will actually be less than it is now.

With the Legislature in control of funds for state forest land purchase, the request of the department for up-todate dollar limits per acre is a reason--Harrisburg Patriot

George Sokolsky Says . . .

American Dollar

ter has written to me about his bill to withdraw the present 25 per cent gold

coverage of the dollar. Modestly h e says: "I am prepared to con-

cede that we may be wrong. I will not concede. how-

ever, that all of the people who approve the principle proposed by H.R. 6900, are anything but good Americans, who have the interest of their country at heart. This goes for the President's

Task Force on the Economic Situation and Balance of Payments, headed by Allan Sproul, former president of the Federal Reserve Bank of New York; the vast majority of the members of the Committee for Economic Development's Research and Policy Committee, headed by T. V. Houser, former chairman of Sears, Roebuck & Company; John J. McCloy, chairman of the Chase Manhattan Bank; Henry C. Alexander, chairman of the Morgan Guaranty Trust Company; Roy L. Reierson, senior vice president and chief economist of the Bankers Trust Company; and many other respected businessmen . . .

The question is not whether these men are good Americans. good American and then to finedecide whether these gentlemen belong to the noble category of are motivated by self - interest value. or whether they are pursuing an "the interest of their country at tion and maintenance expendi-

Congressman Abraham Mul- heart" and be utterly confused and damaging

> nore the list of names which Conad hominem argument. However, the Congressman does ties. raise a question in his letter which deserves serious consideration. He says: ". . . your Federal Reserve

note (most of our currency) is guaranteed not only by the surplus and assets of our Federal Reserve Banks (they are all owned by the United States Government) but, in addition, are backed by every dollar of assets of the United States Government. Those assets are many times more than enough to meet all the obligations of the Federal Reserve Banks. The twenty-five per cent gold reserve is not needed to make up any possible

This raises the question of what are the assets of the United States. Our budget does not include them. Our Treasury's annual reports do not include the

Our federal bookkeeping system is based on the simplest method of accountancy, namely income and outgo, much like a housewife handling a check book. No business could survive such accounting methods.

The assets of the United States Government are enormous and It would be a task to define a could if properly audited and accounted for, provide ample covcomb careers and reputations to erage for the American dollar. This government owns, for example, an enomous quantity of good Americans or whether they real estate, some of it of great

No accounts are kept of these economic dogma which accepts assets. They are rather dealt fiat money. Also men may have with only on the basis of erec-

tures. The United States Government owns more than half a Therefore, I for one, must ighundred corporations, some of which could, by proper accountgressman Multer presents as an ing, be established as profitable. They are either assets or liabili-

> These corporations are enormous properties, as for instance, TVA. They are caried on the books as decisions of Congess rather than as assets or liabili-

> If Congessman Multer means that the American dollar should be protected by the assets of the United States Government, then he has to arrange that our federal bookkeeping system be revised. That would be an extremely constructive measure. It would represent a step forward in government financing.

It might prove embarrassing to some officials who dislike auditing as the devil hates holy water, but it might even encourage the sale of some government assets, the funds to be used to reduce the national debt.

I fear that the legislator is emotional about the virtue of the dollar. He says:

. . I for one, as an American, do not require my government to back up its guarantee with a gold reserve."

This paragraph does not deal with the economics of the dollar. It is Multer's response to the perfection of the American government which, while laudable, is ultra vires. The United States has defaulted on its obligation in the gold content of the dollar. The case went to the Supreme Court as Congressman Multer

There can be no sentiment about money. It is accepted because of confidence or coercion. It is rejected out of fear. It is not something to be loved for its

About Town

-By Gene Brown

Time magazine tells about a new kindergarten school on the West Coast in which the moppets are taught nothing except reading, writing and arithmetic. No play periods, no adjustment classes, no PTA . . . and there is a long waiting list for admissions, tven though the kids have to attend school all day and pay \$900 per year.

driving on the Nation's overcrowed highways is dangerous now, fasten your seat belts and U.S. weapon experts say it is

possible to reduce the size and cost of ICBMs to the point where they could be mounted on trucks. A fleet of 50,000 such units, constantly on the road, would give terrent force, they say. This is the "inspired" report

from Geneva, where U.S. negotiators are making a last - ditch effort to get-the Soviets to agree to an effective treaty to ban nuclear weapons tests Whether the report, carried by

signed to scare the Soviets into coming to terms, or to convince Americans that it is time to break off negotiations and resume testing, is not clear.

ment of decision is fast pproaching. So far, President Kennedy has ignored his campaign pledge to "prescribe a reasonable but to determine whether significant progress is being made" in the Geneva talks. But the issue is the most immediate reason for the President's trip to Vienna to see Premier Khrushchev.

here are the key elements of the issue confronting the President.

10 Years Ago

A Bethlehem man who had spent the day fishing on Lake Wallenpaupack was returning to his home and fell asleep while driving down N. Courtland street. The car jumped the curb and smashed into a service pole in front of the old Maplehurst property. He escaped uninjured but the entire front end of his car was smashed.

The Salvation Army announced it would open its daily Vacation Bible School June 11. The school would operate for two weeks.

A bolt of lightning struck the fire siren system in Bangor and set the sirens off. Firemen were summoned to three different places by the faulty system before it could be repaired.

John G. Gelinas was graduated from Keystone Junior College.

20 Years Ago

Rea and Derick Drug Store on Main St., Stroudsburg, re-opened modeling. Both the front and the it will be soon, however inside of the store had been re-

The home of William Wolbert, just north of Eagle Valley Corner on the Analomink road, was gutted by fire that started when a bolt of lightning struck the Q-Can I find out through

How many recall in 1936 when Sam Everett and Gertrude E. Miller were named as the directors of the East Stroudsburg Playgroundst

on Oct. 31, 1958, the Soviets have never accepted what the Americans and British regard as the minimum features of an effective inspection system. And since March 21, when the negotiations were resumed, the Soviets have insisted on a new three - headed control group giving them a "built - in Veto" unacceptable to the West Meanwhile, all three countries

have declared a voluntary moratorium on all nuclear tests, amounting in effect to a test ban without controls. If the Soviets have been "cheating" by conducting small underground tests that can't be detected, they may have caught up with U.S. weapons technology. This could imperil U.S. security unless we resume testing to perfect such

items as the "pocket ICBM" and the "neutron bomb. To break off negotiations and end the moratorium, however, might doom any chances of arriving at an eventual agreement with the Soviets for arms reduction. With France already knocking at the door of the "nuclear club," and others including China seeking their own nuclear arsenals, a world-wide arms race could be expected.

The President is confronted with a dilemma, in short - to test or not to test. And unless he can persuade Khrushchev to come to terms quickly, the pressure to call it quits in Geneva Since the Geneva talks began is likely to prove irresistible.

Pressure to Test So far, President Kennedy has clung to the hope that the Soviets could be brought around. On April 21, he admitted being "very discouraged by the newest insistence of the Soviets on a veto," but on May 20 he sent his chief negotiator, Arthur Dean, back to Geneva with instructions "to use every reasonable effort to get a workable and effective treaty."

Elsewhere in Washington however, there is widening skepticism. Last December Rep. Chet. Holifield (D Calif.), Chairman of the powerful Joint Atomic Energy Committee, called on Mr. Kennedy to resume testing in 60 to 90 days, saying the real Soviet purpose was to "keep on stalling at the negotiating table." Holifield and other members of the Joint Committee flew to Geneva May 24, apparently to confirm their suspicions.

On Jan. 30, the Atomic Energy Commission voiced its own fears of "a continued unpoliced moratorium on weapons testing," implying that the Soviets were cheating since "the military advantages to be gained from clandestine nuclear testing are great, and the probabilities of detecting and identifying clandestine tests are very small.'

Backing up these views are such scientists as Dr. Edward Teller, "father" of the H - bomb, who has long argued for a resumption of testing on grounds that the Soviets were not to be trusted, in any event, and that such essential "improvements" of the U.S. nuclear stockpile as the development of "pocket ICBMs" necessitated testing. Just when the President will make his decision depends on the outcome of his talks with after an short period for re- Khrushchev. No one doubts that

-By Bobby Westbrook

Well, there's a break! .. The promise of a sunny Saturday for a change, which should be good news for the committee who have been working so hard on the Country Fair scheduled for today at the J. M. Hill School,

Of course, they are a resourceful group but it might have been a little hard on the school to have the pony rides in the gymnasium and the archery range in the library. Oh I guess they have a rain date but my motto is never postpone anything! Except work - my work - that is.

I can find more reasons for not doing chores. Like lingering to see Dr. Nathan Meyers' slides on Hawaii, for instance, at the Red Cross meeting. You can't report on slides - you have to see them. But that's exactly what I wanted to do - so I did. And they are well worth seeing.

Soviets Agree To Somalia Aid

MOSCOW (AP)-The Soviet Union Friday agreed to grant the new African nation of Somalia a long-term credit of 47 million rubles-officially valued at \$52.1 million-and build two hospitals, a school, a printing house and a radio station free of charge. The credit, to be used mainly for industrial and agricultural development, was announced at the end of a visit by Premier Abdirashid Ali Shermarche. Somalia, composed of territories on the East African horn formerly administered by Britain and Italy, became independent last July 1.

Another good reason for Confidence in a growing America

YES-THIS IS A RADIO!

-It's one way the miracle of the transistor is changing your life

The transistor started out a dozen years knowledge, the greater their achieveago as an amplifier for telephone signals, and look what's happened to it!

Now they're widely used in midget portable radios. A single missile may carry as many as 6,000 transistors, and its control equipment may use thousands more. The "magic brain" computers all use transistors and kindred devices, up to several hundred thousand for a really

The transistor is just one more example of the drive for discovery that is sparked by America's big and growing research and development operation.

It could have been devised only by people dedicated to never letting well enough alone. Already they have given us a long list of advances, from jet transports to earth satellites, from vitamins to the wonder drugs. And the wider their

ments. They have only begun to work

No wonder our research expenditures are running at \$12 billion a year - and constantly increasing! For new products and processes build new companies. whole new industries. They create new. better-paid jobs by the tens of thousands. They mean better living for everybody.

It won't all be quick and easy. We'll have our problems, just as usual. But with these first-class problem solvers on the job, we can look forward to the great-

est era of progress in all our history!

Your Horoscope

By FRANCIS DRAKE

SATURDAY, JUNE 3, 1961 March 21 to April 20 (Aries)—To-day advises caution in many mat-ters and patience in all. Don't fret if you cannot accomplish as quickly as possible or get others to see your way. This is a day for cooper-ation, faith.

April 21 to May 21 (Taurus)—A slow but hopeful start this month won't be amiss. Extra effort, clever management your stand-bys. Influences are mixed. You be the astute judge as to what and how to handle things.

June 22 to July 23 (Cancer)—
Emotional control a "must." Keep disposition and health in trim by refusing to capitulate to silly upsets. YOU have good sense and a multitude of talents so make use of these fully.

When this was accomplished, she returned to her studies. Despite the many duties pertaining to her immediate family, she was able to reach her goal. This necessitated in whose office the award will be on display for a year. The three men accepted the trophy.

Irving J. Feist of Newark, New and a planned program at home which

August 24 to September 23 (Virgo)

A cozy day in between two auspicious ones. How you plan your program and allocatoe tasks important to outcome at end of day. Be happy, hopeful as you study, work. Good work is never lost.

Forest fires menace most on weekends. More people are in the forest-and there's more chance for man-caused fires to flare; more chance for destruction-and terror!

It's a tragic and shameful fact that nine out of ten forest fires are man-caused-too often by the carelessness of a "weekender" who thoughtlessly flips away a smoke or a glowing match.

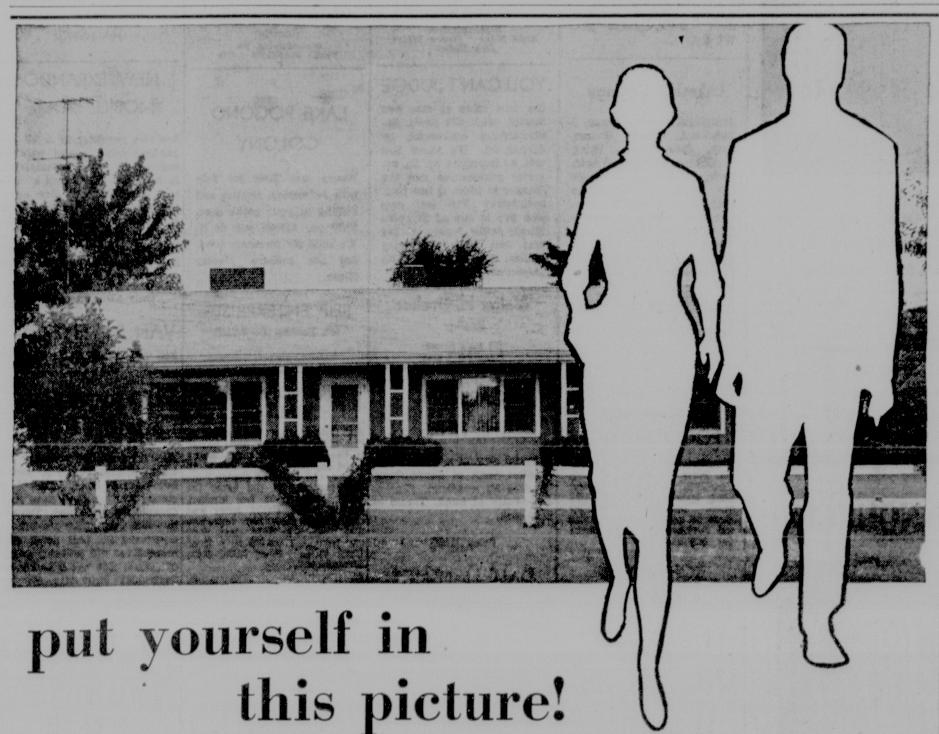

So when you're in the forest over a weekend-or on a Sunday drive or a picnic-be extra careful. Always follow Smokey Bear's rules:

Break matches-crush smokes-be SURE all fires are out!

Rememberonly YOU can prevent forest fires!

The Daily Record

Nice happy thought, isn't it! Happiness is a very appropriate word to describe home ownership. Why deprive yourself of the delight and lasting happiness which can be found in a home of your own. Don't make the mistake of passing up the opportunities available right now in this community. Take a look at today's classified section. You'll find dozens of homes you can go and see this weekend. Don't say "I can't afford it" until you have investigated the possibilities. It won't cost a cent, or place you under any obligation, to talk to one of the realtors or builders "showing" their homes today in "The Saturday Review of Homes".

Don't miss the new "Saturday Review of Homes" feature in today's classified section. Start your househunting this simple convenient way.

The Daily Investor

Symbol

Of the Most Livable

Homes in the World

AWARDED THE TOTAL ELECTRIC

517 E. Bryant St., S. Stroudsburg, Pa.

OPEN FOR INSPECTION SUNDAY, JUNE 4 12 to 5 P.M.

A TOTAL ELECTRIC GOLD MEDALLION AWARD in the simplest of words says, "Here is a home designed for the best in modern, carefree living . . . a home you can be proud of in every respect."

At the top of the Gold Medallion pleasure list is electric home heating with its many "extra" conveniences. You gain added basement or utility room space since there's no central furnace! There's no burner to keep adjusted! No furnace to keep clean! No fuel storage problems! And, with electric heating, you can enjoy the exact degree of warmth you want in each room.

Throughout this Total Electric Gold Medallion Home, you'll find living at its best. The automatic electric range offers carefree cooking with picture book results; dishes are washed and dried sparkling clean in the electric dishwasher; and automatic electric water heating provides piping hot water anytime at the turn of the tap. Prescribed Light for Living brings out the beauty of your home furnishings, provides sight-saving seeability and after-dark protection. Certified wiring for Full Housepower assures safe, convenient, efficient and economical operation of your electric appliances. And, all the wiring and plumbing facilities needed for the installation of an electric washer and dryer are ready and waiting.

In Central Eastern Pennsylvania, a Total Electric Gold Medallion Home mets comfort and convenience specifications assuring . . .

- Flameless electric home heating
- Certified wiring for Full Housepower
- Prescribed Light for Living
- Flameless electric cooking
- Electric dishwashing
- Flameless electric water heating
- Wiring and plumbing facilities for an automatic clothes washer and Flameless electric clothes dryer
